PURE SPIRIT PERFUME BURNER

With this perfume burner, you can delicately perfume your home while diffusing the energy of the stones in the Life On Venus melting pot.

Instructions for use:

Place the heart fondant, light a tealight candle in the lower part of the perfume burner and enjoy the delicate scents of our master perfumer (fragrances from Grasse) and the benefits of the natural stones. You can reuse this fondant several times, and when all the fragrance has been diffused, the melted wax will no longer give off any scent.

Once the wax has cooled, scrape it off with a spatula or a teaspoon, very gently so as not to damage your burner cup!

Then dispose of the natural wax in the garbage can - it's biodegradable!

A touch of Zen decoration

Inspired by the design of the flower of life, once lit, enjoy a moment of relaxation thanks to its soft light and shadows, for a luminous, spiritual and relaxing atmosphere.
