COLLECTION **A**

Collection A was born from three essential intentions :
**A for Amour — Love, A for Ancrage — Grounding,
A for Abondance — Abundance.**

Each candle is consciously designed and created in a quest for harmony between the natural stones, their symbolism and energy, and the fragrance from Grasse with which they are paired.

Each fragrance has been chosen to resonate with the stones and extend the candle's intention.

Hand-poured, each candle comes with a mantra and a ritual, transforming the moment into a true pause for yourself.

Its handcrafted blown-glass dome was also designed to last. Once the candle has burned down, it becomes a beautiful everyday object.

A candle, a ritual, an object to treasure.

HOW TO USE THE SCENTED CANDLES ?

1- Cut the wick

For a perfect combustion of your scented candle «Pierres de vie», cut the black tip of the wick before lighting it.

2- Let the wax melt

Let the wax melt on the entire surface of your scented candle before extinguishing it, to prevent a well from forming and no more than 2 hours at a time for better durability.

3 : Avoid moving the candle

Once your natural candle has been extinguished, wait until the wax is completely hardened before moving it.
